

# AUTOMATED SCAN PROGRAM

## GET YOUR CREDITS FASTER

Did you know that you can receive credit for your scan promotions sold with no time-consuming manual paperwork required? Our Automated Scan Program (aka AutoScan) uses your point-of-sale data to automatically redeem scan promotions on qualified purchases.

**Set-up and participation is free** and will allow you to seamlessly receive credits for scan promotions. AutoScan credit will appear as credits on your retailer statement, typically in 7-10 days.

### Retailer Benefits:

- Save time with a streamlined process for scan redemption
- Provide value to your shoppers with discounts and specials
- Earn incremental revenue
- Drive traffic and sales
- Point-of-sale data is protected by encryption in secured transmission
- Quick payment turnaround
- Free setup and participation

### How to get started

Once the Retail Data Sharing agreement is signed, we'll schedule a time to set-up the S4/DSI collection software. Installation is quick and easy, doesn't impact other store operations, and can occur during regular business hours. We can get you from signature to installation in about two weeks.

Once installed, the S4/DSI agent works in the background and is virtually invisible to the end-user. The data collection process is secure and protected by encryption.

## RETAIL PAYMENTS

### WHY CHOOSE UNFI?

#### Your Trusted Partner

We have years of expertise in secure data collection in the grocery industry

#### Fast Payments

You'll receive payments in 7-10 days rather than 30+ days

#### Save Time & Resources

Our proven solution saves you time with no need to track which items have scan promotions or manually provide POS reports

#### Accuracy & Integrity

Receive payment on all approved qualifying scans as viewed on your ad planner
