## Why Pay in Cash?

There are many different reasons why a customer may prefer to pay in cash. Research shows that about one-fourth of Americans are unbanked or underbanked, so cash payment services ensure financial and social inclusivity for those shoppers who depend on cash. Others may prefer cash for issues of privacy or because it helps them stick to a budget more easily.

**CheckFreePay will allow you to be more community-minded and socially inclusive while driving more customers to your store.**
