

ENDING ALLOWANCE REPORT

The Program

Retailers receive a weekly report, via SV Harbor, with full Excel filter & sort functionality. The best deals are sorted to the top of each department, with columns displaying allowance amounts, expiration dates, SRP requirements, and visibility to allowances that will start the following week.

- Based on your store's purchase history
- Formatted to print and distribute to department managers

Benefits

- Outstanding ROI: take advantage of the best allowances before they expire
- Convenient: Cuts through the clutter of the full allowance report
- Provides Insights: All key metrics are displayed to facilitate your buying decisions
