

ENHANCED MANAGED NETWORK SERVICES

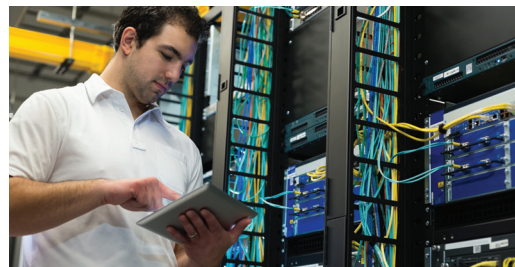

UNFI offers managed network services that are specifically tailored for retailers, providing you the infrastructure, software, and technical support you require to successfully and securely operate UNFI services and applications, including payments, ordering, and myUNFI.

A MORE SECURE, MORE RELIABLE NETWORK

We've partnered with Acumera® to bring you BranchSDO™ services, an all-in-one network technology solution that enhances connectivity and security for retailers with multiple locations. With more reliability and agility than previous technologies, its key features include:

- A single platform that can be managed centrally for multiple locations
- Automated tasks to manage connections and operations in the cloud
- Proactive uptime monitoring, including scheduled maintenance routines for optimal performance
- ISP Dispatch: We'll handle any necessary escalation to the correct network providers so you don't have to
- AP's and PoE Switch monitoring for Netgear customers: Maximizing uptime for your switch devices
- Back-up cellular connectivity if your primary network is disrupted
- Redundant internet connections for better service and a more reliable connection
- Up to 4 SSIDs to provide wireless access for your POS system, back-office, internet, and guest Wi-Fi
- 24/7 support

RETAIL TECHNOLOGY

WHY CHOOSE UNFI?

- At UNFI, we go beyond your expectations to deliver superior service to our valued customers
- We strive to minimize network disruptions, ensuring a seamless and reliable connection for your business
- Our cutting-edge technology and proactive measures enhance your operational efficiency and protect your profitability
