

LOSS PREVENTION

One of the biggest concerns retailers face today is shrink, with nearly 85% of retailers pointing to the huge impact theft has had on their businesses. Last year, US retailers lost \$47.8 billion in gross revenue to theft.*

To help mitigate some of that loss, we offer a variety of solutions to deter and prevent theft in your store – as well as theft of your shoppers' sensitive information. From software that integrates with your surveillance system to electronic gates and lockable cases, we can help you find loss prevention options that fit your store and your shoppers' needs.
