TESTIMONIAL

“ The system was easy to set up, and it was easy for my guys to learn how it works. Using the system probably saves me 5 to 7 hours a week in paperwork – time better spent on merchandising the case for sales and profits. Plus, keeping all those logs was a mess because I would store them in boxes just in case I needed them. The electronic grind log saves me time, preserves all my records electronically, and gives me peace of mind in the event my store is ever inspected that I have accurate records.”
