

S4 UCHEX SELF-CHECKOUT

Self-checkout lanes at your grocery store are no longer a 'nice to have' option. Today's savvy shoppers have the expectation that they'll be able to quickly check-out on their own and avoid long lines. Adoption of self-checkout technology has increased by more than 20 percent since 2020, and most shoppers who have started using self-checkout plan to continue.

Benefits of Self-Checkout

- Increased convenience
- Shorter wait-times for shoppers
- Frees up employees to focus on customer service & other duties
- Improved customer satisfaction & retention
- More efficiency, improved productivity, & lower operational expense

An Inexpensive & Efficient Option

The most common barrier to self-checkout for independent retailers is cost: Self-checkout technology has been cost prohibitive for many smaller retailers, and many have not been able to justify the large investment. Plus, self-checkout technology often takes up too much space for smaller-format stores. **Now, there's a solution that fits.**

Introducing S4 UCheX

- Affordable technology, **costs 50% less** than other self-checkout systems
- Smaller footprint—**takes up less space** than other offerings
- Customer-friendly tech guides the shopper through the transaction
- Easy produce search with dynamically updated flip charts
- Optional monitor enhances security & reduces shrink
- Integrates with app for analytics to manage front-end labor
