

WORKFORCE MANAGEMENT

UNFI has partnered with Ban-Koe Companies to bring independent retailers the vDix Workforce Management system, a cloud-based tool that helps you manage your staff more efficiently.

This easy-to-use solution benefits both managers and employees by automating complex tasks like time tracking, scheduling, forecasting, and empowering associates to set their own availability, request time off, and swap shifts. Reduce the amount of time spent on managing timesheets, scheduling and rescheduling—plus **attract and retain employees** with flexible scheduling and employee autonomy.

Workforce management meets these top three priorities:

- (1) your store is properly staffed
- (2) your employees aren't overworked
- (3) your customers are getting the level of service they need.

System Highlights

- **100% cloud-based**
- **Automated schedule building** with an intuitive, easy-to-use interface
- **Advanced scheduling** that saves you time
- **Employee access** via the mobile app
- **Integrated timeclocks**
- **Geofencing** to ensure that employees are at work when clocking in and out
- **Integration with your existing payroll system**
- **Ability to set simple and complex pay rules**
- **Detailed reports** that give you more visibility and control over your labor expenses

Retailer Benefits

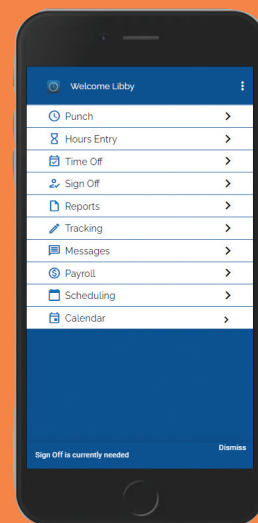

- Best-in-class service and support to the independent grocer
- Future enhancements included
- Enhanced access security
- Online training available 24/7 via vDix University

RETAIL TECHNOLOGY

FAST FACTS

#2 EXPENSE

Labor management is the second most controllable expense in grocery retail

\$373 MILLION

The amount of money US employers lose each year to timeclock fraud from buddy punching

TESTIMONIAL

"We fell in love with vIDix LABOR and how easy it was to use. Everything is on one screen. We don't have to go through five menus and save five times to perform administrative tasks."

-Eric K.
